**Using scales to monitor symptoms and treat depression**

December 2nd, 2016 - Psychiatrists treating depression can monitor progress by serially measuring severity of symptoms with a standardized scale However most psychiatrists do not A study in 2000 sent a survey to 500 psychiatrists and found that among the 340 who responded 58 percent never used a scale to measure clinical change of depression and anxiety Another survey of 306 psychiatrists in 2006 to 2007 found that 29 percent never used scales and 32 percent did so rarely
